

# Fuel-Efficient Stove Questionnaire

## PREVIOUS STOVE

**Before you got your stove, how did you cook your food?**

*(If not mentioned, also ask about equipment and type of fuel)*

---

**For how long was your old stove on in a day?**

*(Can you estimate in hours?)*

---

**What fuel did you use?**

*(Probably some sort of wood, grasses, leaves, etc)*

---

**How much fuel did you use per day?**

*(I don't know what units of weight they would use)*

---

**How long did you have your stove for?**

*(Years, months)*

---

**Did your stove make you sick?**

*(Ask about smoke)*

---

## NEW STOVE

**What is your current method of cooking?**

*(If don't have stove, ask why and note)*

---

**How long is your stove on for each day?**

*(Can you estimate in hours)*

---

**What fuel do you use for this?**

---

**How much fuel is used in a day?**

*(Might not have exact units)*

---

**How long have you had your new stove for?**

---

**Does this new stove make you sick?**

*(Ask to compare to before/the old stove)*

---
